On being a man

What does it mean to be a man in today's world? The answer has changed dramatically since the 1800s. During the previous century, men learned a skill, craft or trade and handed these down to their sons. Men worked closely with their sons, giving boys close, enriching physical contact with their fathers. Boys could see what men did and could envision themselves doing the same thing.

What skills or trades did your great grandfather or grandfather use to make a living? Did he work with his hands, with the land, or in another capacity? How did he teach his own sons—your grandfather and father among them—to be men?

Happy recording,

Heidi
